

KEBIJAKAN LINGKUNGAN

PT. Krishna Sukses Abadi (KSA) merupakan perusahaan yang bergerak di bidang produksi, pengolahan, dan ekspor produk alami Indonesia seperti resin pinus, gum rosin, dan turunan lainnya, menyadari bahwa kegiatan operasional perusahaan memiliki aspek dan dampak terhadap lingkungan hidup yang dapat mengakibatkan gangguan terhadap keberlanjutan usaha serta gangguan terhadap lingkungan di dalam dan di sekitar perusahaan. Untuk itu, KSA berkomitmen mengelola lingkungan sebagai salah satu prioritas utama perusahaan yang didukung oleh visi, misi, strategi, dan program kerja perusahaan guna mencapai sasaran dan target yang ditetapkan.

Pimpinan puncak, seluruh karyawan dan mitra kerja berkomitmen serta terlibat aktif untuk:

1. Menaati regulasi pemerintah, standar perusahaan, standar nasional, standar internasional, dan persyaratan lainnya terkait lingkungan.
2. Meningkatkan dan memperkuat kapasitas sumber daya manusia.
3. Melaksanakan pengelolaan lingkungan berdasarkan strategi perusahaan.
4. Melakukan upaya pencegahan pencemaran dan mengelola dampak terhadap lingkungan.
5. Menerapkan pengelolaan lingkungan yang bertanggung jawab dan mengupayakan pelestarian lingkungan serta konservasi sumber daya alam melalui pendekatan keberlanjutan.
6. Meningkatkan kepedulian lingkungan dan kinerja lingkungan melalui perbaikan berkelanjutan sistem manajemen lingkungan.

Guna mendukung pemenuhan komitmen di atas, KSA menetapkan kerangka dan rencana kerja secara berkesinambungan dengan tujuan memelihara dan meningkatkan kinerja lingkungan, melalui:

1. evaluasi pemenuhan regulasi pemerintah, standar perusahaan dan persyaratan lainnya serta mitigasi risiko dan tanggap kedaruratan yang muncul terkait lingkungan;
2. penggunaan energi yang efisien, pengurangan konsumsi energi melalui inisiatif konservasi, dan pemanfaatan energi baru dan terbarukan;
3. pengurangan bahan berbahaya dan beracun (B3), penggunaan bahan ramah lingkungan, dan pemanfaatan limbah B3

ENVIRONMENTAL POLICY

PT. Krishna Sukses Abadi (KSA) is a company engaged in the production, processing, and export of natural Indonesian products such as pine resin, gum rosin, and their derivatives, realizing that the company's operational activities have environmental aspects and impacts that can cause disruption to business continuity as well as harm to the environment in and around the company. Therefore, KSA is committed to managing sustainable environmental management as one of the company's main priorities to achieve its objectives and targets, supported by vision, mission, strategy, and work programs.

Top management, all employees, and partners are committed and actively involved in:

1. Complying with government regulations, company standards, national standards, international standards, and other environmental requirements.
2. Improving and strengthening the capacity of human resources.
3. Performing environmental management based on the company strategy.
4. Preventing pollution and managing impacts on the environment.
5. Implementing responsible environmental management and striving for environmental preservation as well as natural resource conservation through a sustainable approach.
6. Improving environmental awareness and performance through continuous improvement of the environmental management system.

To support the fulfillment of the above commitments, KSA establishes an ongoing framework and action plan with goals to maintain and improve environmental performance through:

1. evaluation of compliance with government regulations, corporate standards, and other requirements, including risk mitigation and emergency responses arising related to the environment;
2. energy efficiency, energy consumption reduction through conservation initiatives, and utilization of new and renewable energy;
3. reduction of hazardous and toxic materials (B3), implementation of environmentally friendly materials, and utilization of hazardous waste;
4. reduction, reuse, and recycling of waste;
5. reduction of emission loads and greenhouse gas emissions, and increasing carbon absorption to support action against climate change

6. implementation of water efficiency, reuse, recycling, and pollutant load reduction as well as protection of water availability
7. conservation and protection of biodiversity by conducting biodiversity baseline studies and applying a mitigation hierarchy consisting of avoidance, minimization, improvement, and balancing
8. innovation and application of technology in the environmental field
9. improvement of awareness and participation of management, employees, partners, visitors, and all related parties
10. engagement and participation of stakeholders surrounding the company.

This policy is available for the public, applicable to, and is a requirement for KSA, subsidiaries, and partners in developing environmental policies that are appropriate to the business context of each company. Top management ensures the implementation of this policy. This policy will be periodically reviewed and revised considering operational conditions and business needs.
